

Bogdan Romanov

To take part in Erasmus+ project I had to apply for a visa. This experience was quite complicated and stress inducing.

The first step was to submit the application itself through an official website of the Irish Department of Foreign Affairs.

After doing that and calling to the embassy to clarify some information about the process, I started gathering the required documentation.

Copies of my personal documents, confirmation letter from school, personal statement, flight reservations and a lot of other things were required.

After gathering all that, I traveled to the Irish embassy in Prague to officially submit the documents. And now I hope to receive the visa 😊.
